

QUILT PREP

Before submitting your quilt, please ensure that the following tasks have been completed. Your longarm will greatly appreciate it if you take these steps prior to sending it. Failure to do so may result in a fee of \$20.00 per hour. It is advisable to avoid this charge by addressing the issues beforehand.

- Is your quilt back 8" wider and 8" longer than your quilt top?
- You have removed the loose threads at the back of your quilted top, with extra attention to the dark ones.
- Make sure there are no little holes in the seams
- You sew a line of stitching all the way around the perimeter of your quilt about 1/8" the edge (I don't have to worry about the thread being pulled apart from the fabric).
- Give your quilt top a good pressing.
- Please specify which side of your quilt is the top, you can put masking tape to mark the top of quilt.
- Make sure you print the form or make a note (name, return address and email address) inside of the box.
- Please make sure your backing is trimmed and squared up.
